PREMIUM AIR TEMPERATURE
CONTROL SYSTEM

C40™ CLIMATE CONTROL DEVICE

ADVANCED AIR TEMPERATURE CONTROL SYSTEM

Working in an environment where the temperature is comfortable is key to maximizing productivity. The RPB® C40™ Climate Control Device can heat and cool your supplied air as desired.

With the slide of a lever, your employees can switch from heating to cooling ensuring they are comfortable whether they're in the searing heat of the Arizona summer, a severe Scandinavian winter or anywhere in between.

The RPB® C40™ can cool incoming air by up to 52°F (29°C) or heat it by up to 33°F (18°C). This is achieved by simply switching the mixing lever from hot to cold. The device is lightweight and ergonomically designed to sit comfortably on the operator's hip. The RPB® C40™ pairs with most of our respirator range.

APPLICATIONS INCLUDE

- Spray painting, coating and confined space applications
- Pharmaceutical manufacturing
- Chemical, pesticide and materials handling
- Chemical stripping
- Waste management

* Only in conjunction with respirator.

LOW MAINTENANCE

Low maintenance required. The air silencers are the only parts that need cleaning or replacing.
